

UltiAnalytics (iUltimate) Instructions for enabling positional event beta feature

On an iPad...

To enable the beta feature, start a new game.

Under the “Start Game” button, tap 3 times with 3 fingers. You will see a message when the app detects your gesture.

Here is a video of the gesture: <https://youtu.be/l81WIAh9pUM>

You should now see a Detail Level option for all games you start. Pick Field Position if you would like to collect positions for the game.

The screenshot shows a mobile application interface for starting a new game. At the top, there is a dark header bar with a green 'Cancel' button on the left and the title 'Start New Game' in the center. Below the header, the form is organized into several sections. The 'Opponent' field is labeled 'Opponent (required)'. The 'Tournament' field is labeled 'Tournament (optional)'. The 'Our team start' section contains two green buttons: 'Offense' and 'Defense'. The 'Game to' section features a row of five green buttons with the numbers '9', '11', '13', '15', and '17', followed by a 'Time' button. The 'Detail Level' section contains two green buttons: 'Normal' and 'Field Position', with the 'Field Position' button circled in red. Below this are 'Timeouts' and 'Wind' (0 mph, unknown direction) sections, each with a right-pointing chevron. At the bottom of the form is a large green button labeled 'Start Game'. The entire form is set against a light gray background.

Field	Value / Options
Opponent	Opponent (required)
Tournament	Tournament (optional)
Our team start	Offense, Defense
Game to	9, 11, 13, 15, 17, Time
Detail Level	Normal, Field Position
Timeouts	>
Wind	0 mph, unknown direction >
